

#25773

01/17 DE- EN

### Destination

Le garde-mains protège le pilote des roues en rotation. Il rend impossible tout contact de la main avec le disque de frein pendant la marche.

### Intended use

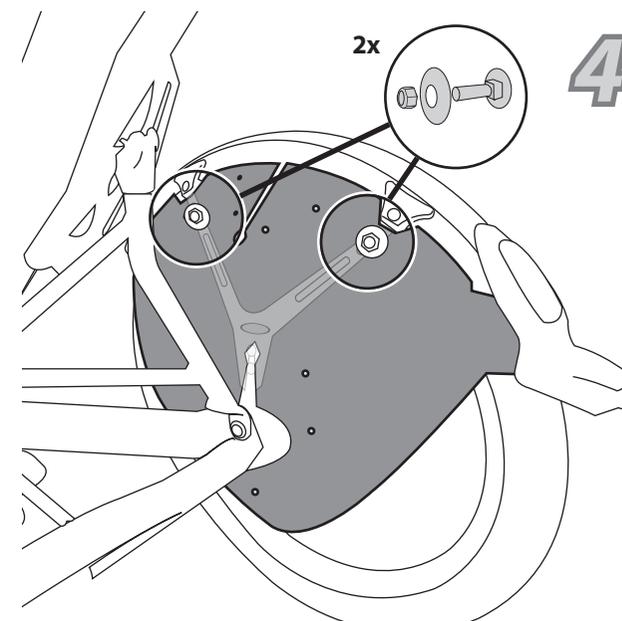

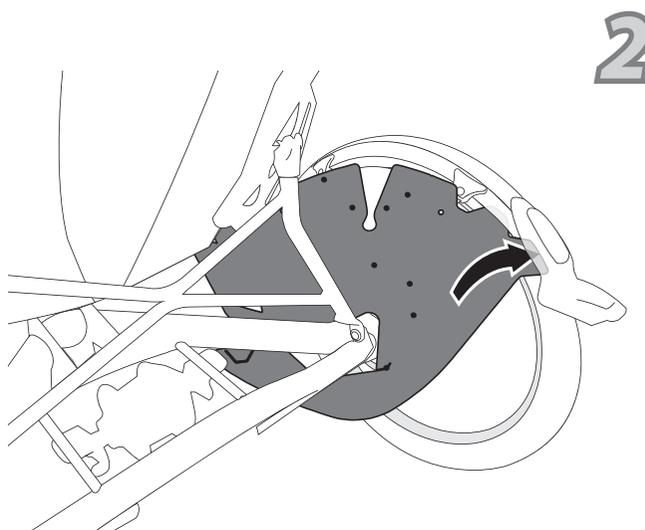

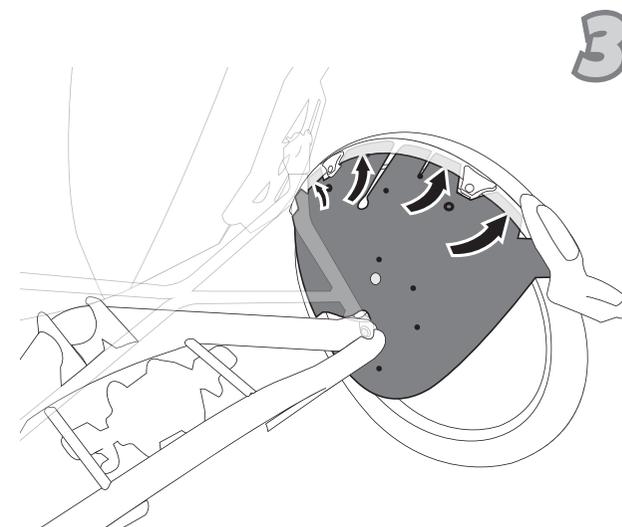

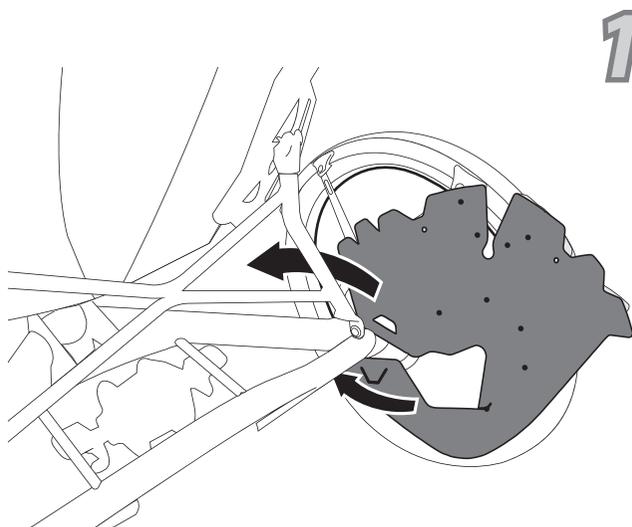

The safety cover protects the rider from the hazards associated with rotating parts. When the cover is installed, it is impossible for the rider to come in contact with the wheel and brake disc.

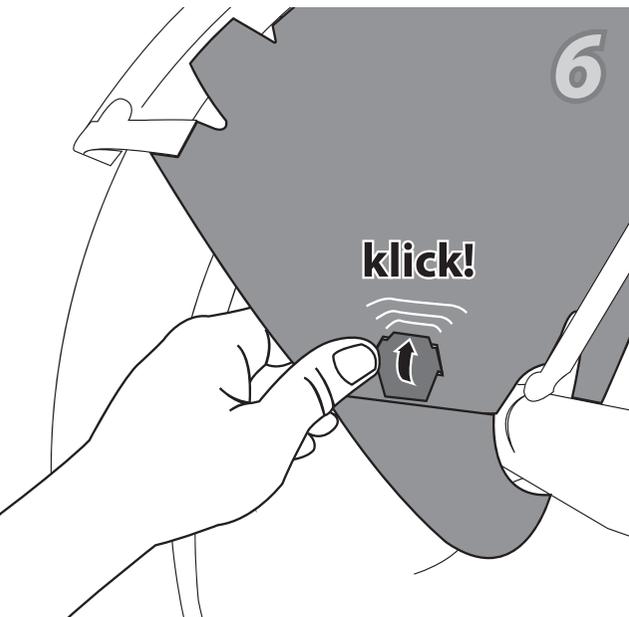

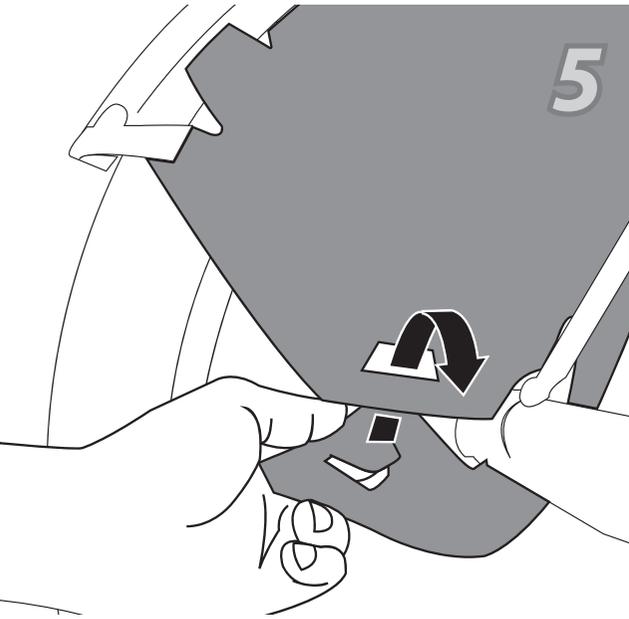

### Attention! Caution!

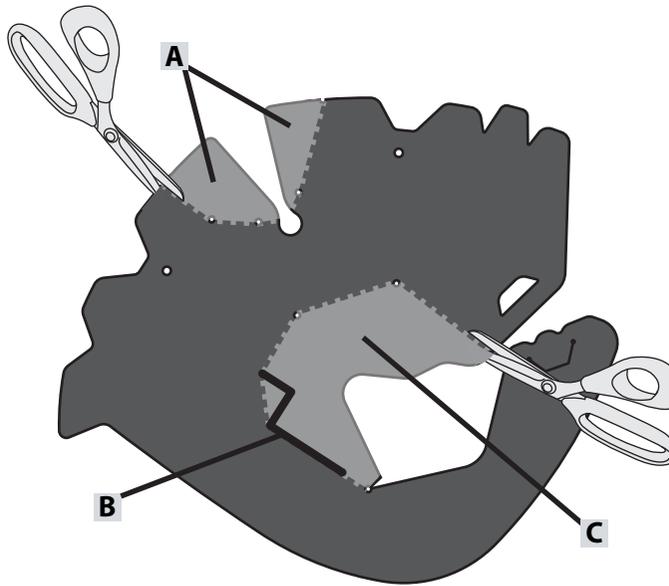

Le garde-mains pour le disque et la roue a été développé pour une utilisation sur les vélos Hase Bikes. En cas d'utilisation sur tout autre véhicule, nous déclinons toute responsabilité. Les disques de frein et les roues sont dangereux, ne jamais les toucher lorsque vous faites du vélo

This cover was developed exclusively for Hase Bikes vehicles. Brake discs and wheels are dangerous rotating parts. Never touch the brake discs or wheels when the trike is in motion.
